A CE-Marked, dual rapid test for the detection of antibodies to HIV 1/2 and Treponema pallidum in fingerstick whole blood, venous whole blood, serum, or plasma specimens.

**Reliable**
- Patented DPP® technology allows for higher sensitivity and specificity
- Built-in procedural control

**Easy to Use**
- Small sample volume: 10 µl
- 15 minute dual rapid test

**Economical**
- 2 test results in a single visit; suitable for PMTCT* programs
- Reduces overall cost burden on the healthcare system**

* Prevention of mother to child transmission
